

# Kill the magical girls

Magical girls are common place like heroes

Mc kinda nerdy salary man guy, starts out wimpy

Dad's dead and little brother is missing for 1 year, mom is in a shocked/ almost bedridden state

She stays in a hospital wherec visits every day to talk with her (keeps )asking for husband and son and is somewhat bored of office stories

Gets home with memorial pictures of his dad and bro

One day, a villain goes berserk but tried to protect a little boy and his mother from danger but gets washed

he Gets saved by magical girl and says should be careful and not be stupid cus he's weak

Gets kinda sad cus of the statement (thinking he and can't protect his mum and save his brother) trains like crazy (free running, gym & calisthenics, kickboxing)

Time skip 2 years

Mum can now sit up, is a lot buffer than before and can fight(became kinda a gym head)

On his off days he sees a villain grunt run off after shaking of a magical girl  
Jumping into a building and , MC grabs on following it into the 4th floor

He sees it about to harm a boy and his mum with his hand cannon charging

He tackles him, pushing him away from them, he drops the hand cannon

They start scraping, MC over powers him a bit, a magical girl clad in green comes in

MC gets distracted and is kicked towards her

The grunt gets his hand cannon and initiates self destruct to take everyone down

Magical girl tried to use. MC as shield but hes to far "get in front of me" outta the way and she takes the blast head on and her hands get fucked up

MC is fine but he sees she's in bad shape, the building is about to collapse but he goes looking for help a few seconds a blonde magical girl come into the scene, seeing only her colleague injured on the floor

MC tries to meet up with them to explain the situation as he sees the blonde MG pick up a destroyed beam with one hand and smash the green MG's skull into paste

MC shifts in shock but is heard by the blond MG and she says "shit", she lunges at MC at terrifying speeds about to but punch him, he puts up his hands in defense but remembers the freak level physical feat she performed and weaves her like a matador instead

He runs in panic, she chases after but after a few seconds, MC turns round, takes her off guard and punches her causing her to trip a bit, while MC's hand is bloody with a sprained finger

"It's like she's made of steel" MC thinks to himself, but no time to dwell he runs for the window while she's still shocked that he actually tried to attack her

Jumps out lands through a tree and blends into the crowd  
MG tries to follow but the crowd being there is too dangerous

"A magical girl killing magical girls, what is this?"

She steps away from the window making a call, "hey babe", call hangs up immediately

She calls again "Captain",

\*\*@"sigh, is it done?"

"Yeah but I kinda screwed up"

\*\*@"lilly you better not say a..."

"A civilian saw me"

\*\*@"oh shit, 'a civilian' so meaning only one right"

" Yeah Just one, got some of his blood on me too"

\*\*@"ok I'll find him, but you have to fix this"

"Aye aye... Babe"

\*\*@"please shut up"
